Creator can upload its video and that would be directed to our users page.so,they can

- **Problem Statement**

- *We all don't know that this pandemic can come. But unfortunately

Come. This breaks us emotionally and mentally as our daily routine will change and convert into abnormal routines. So, we concluded that we made a project i.e, the GYM PROJECT that is the solution to these unusual routines. This is the solution that we have to be Prepare for all the outcomes that came into our world unusually and for fitness freak.

- **Proposed Solution(consists of details/hierarchal chart etc.)/Model**

*We came to the solution that we made a project that deals with our emotionally, mentally and physically in this pandemic time.

- **Scope of a project(coverage of a proposed project)**

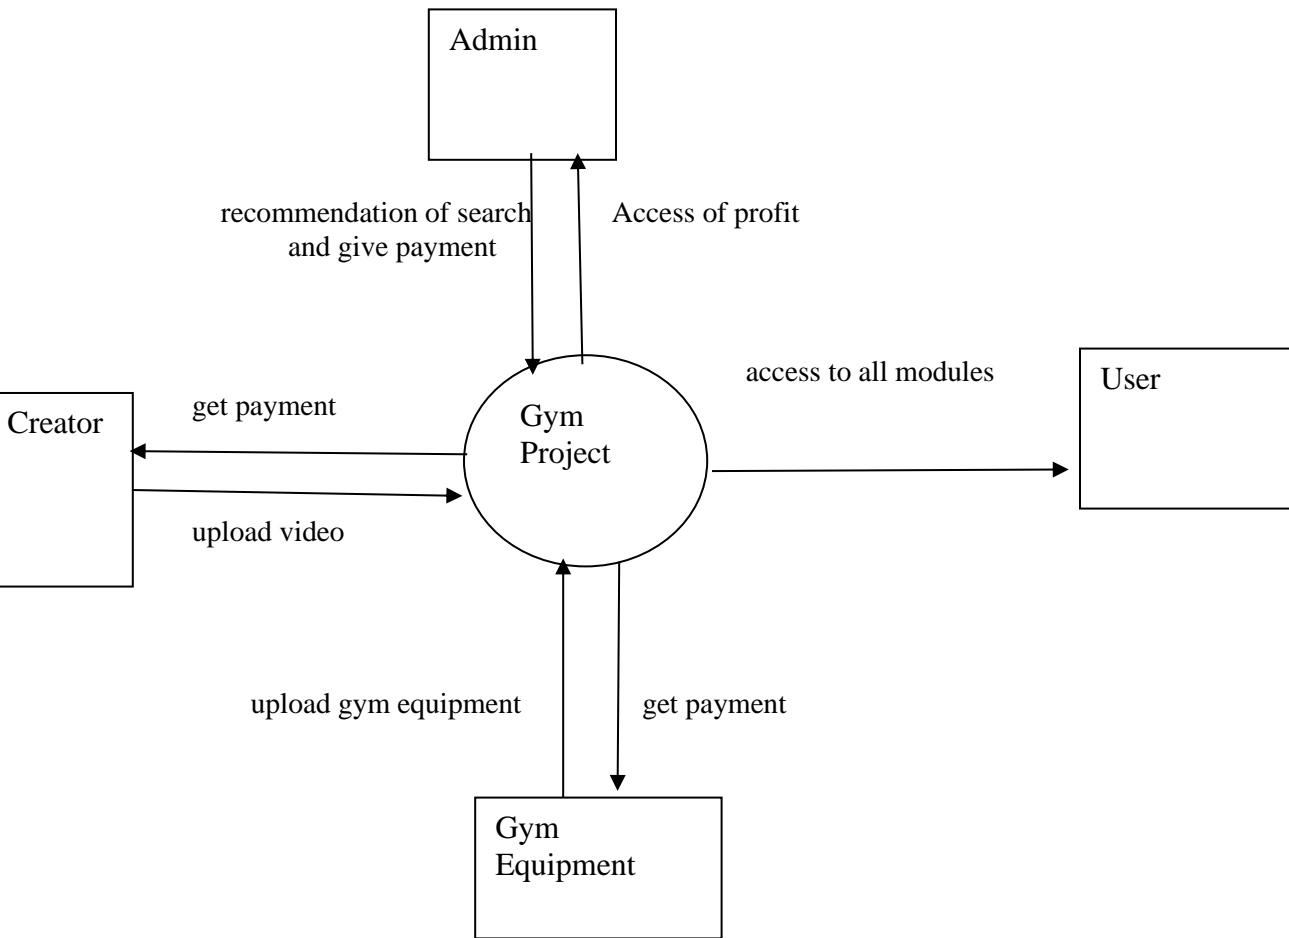

*A common user use it

*Athlete can use it

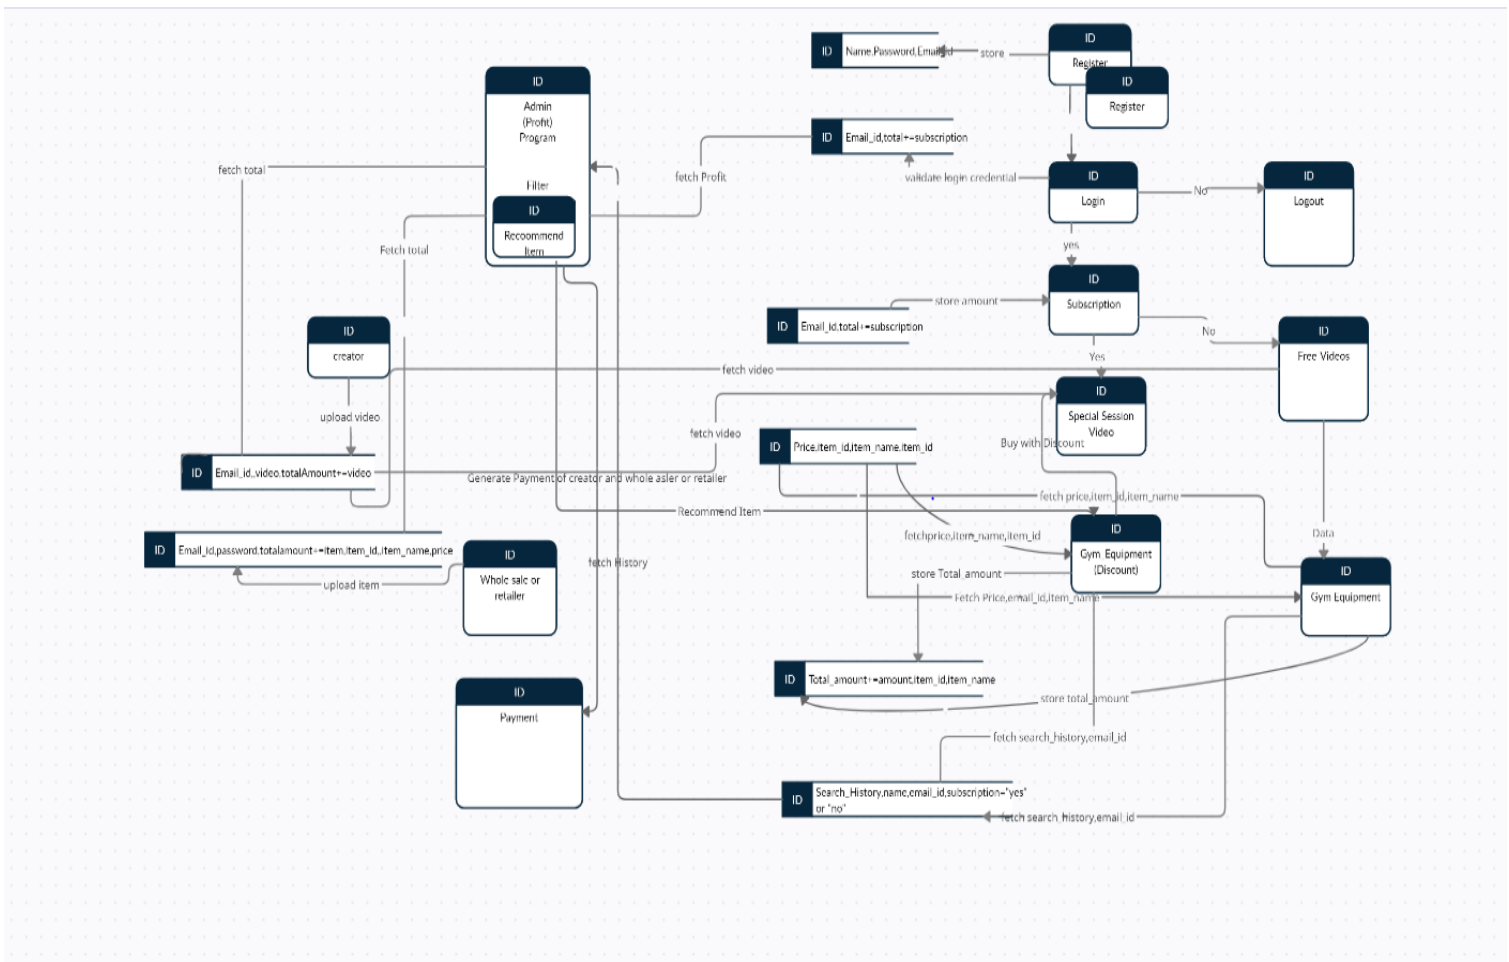

*Meditation user can use it

*Workaholic user can use it

- **DFD (Data Flow Diagrams)**
 - **Zero level DFD**

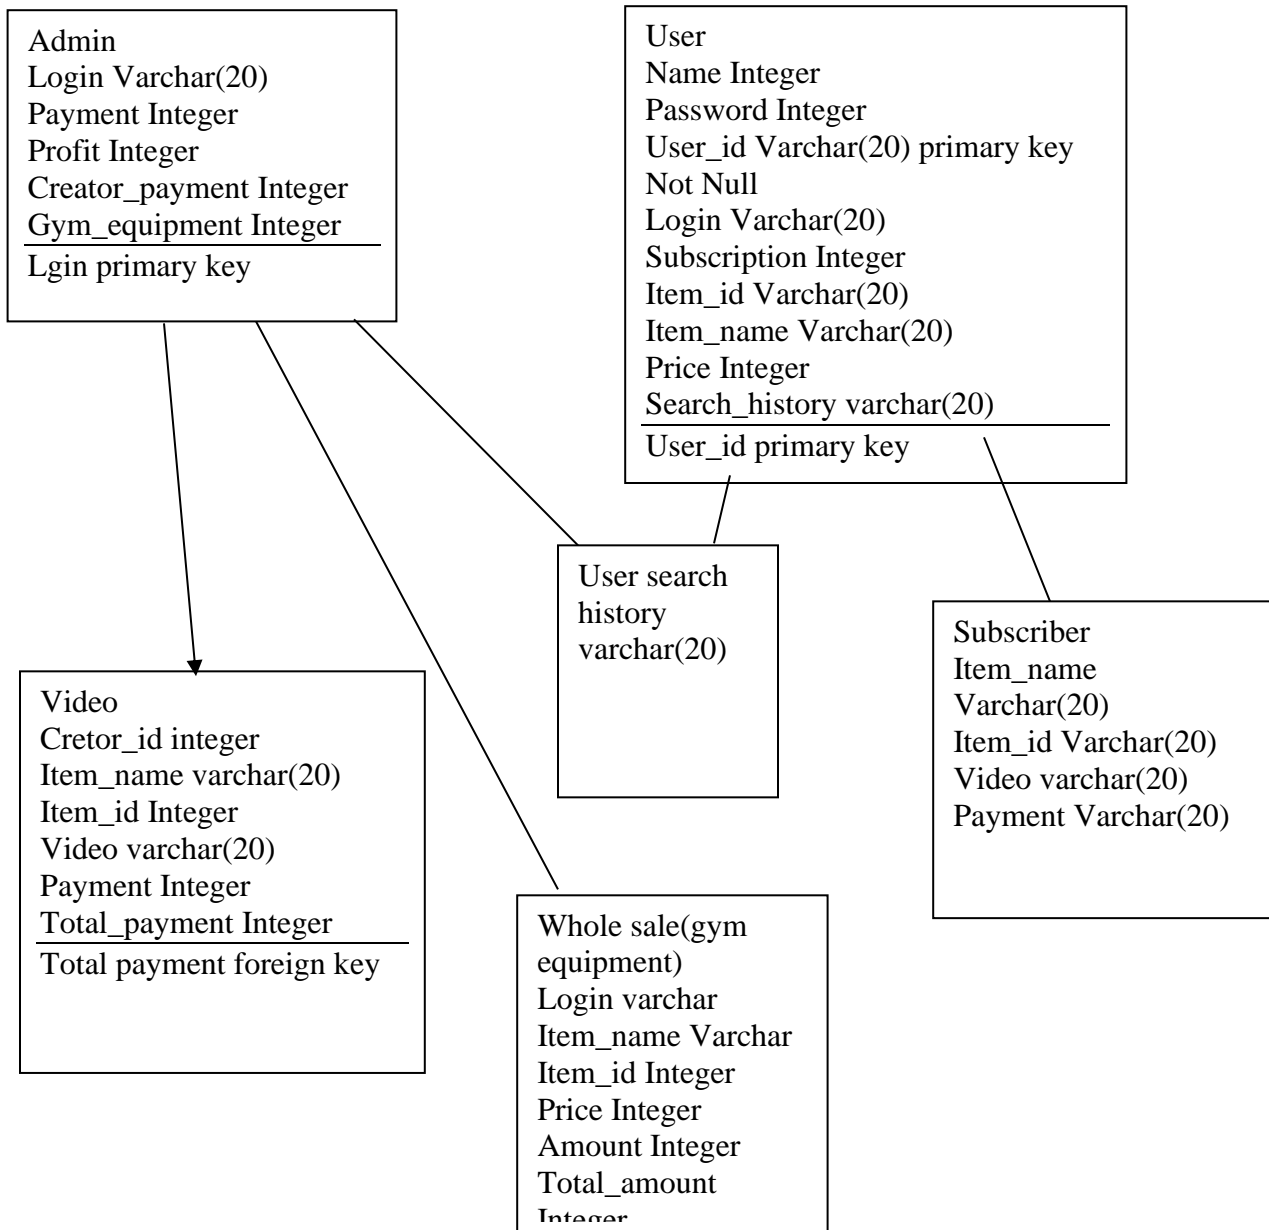

Level-1 Physical DFD

Made in :->Creatively website
